# TYRE PRESSURE MONITORING SYSTEM GMP

GMP TPMS sensor valves of superior quality with programmed data by car type. They operate in accordance with the standards of vehicle manufacturers. Possibility of subsequent programming.

- Complete valve with transmitter, housing and stem
- Metal housing in silver
- Possible installation on aluminum and steel wheels
- OEM compatible with original valves
- Possible installation of the kit 4 pieces or individually
- Top quality
- Programmed for the vehicle

When ordering, please indicate the brand, model and year of the vehicle.

Available in three versions:

- Aluminium Black
- Aluminium Silver
- Rubber Black

**SET** Alloy wheels set for installation is included in price. The set consists of new bolts/nuts (grade 10.9) protected against corrosion, center rings and center caps.

**TÜV** Alloy wheels have a TÜV certificate and can be homologated. Before purchasing, check the suitability for your vehicle.

**❄️** Also suitable for winter use. Wheels are coated with 3-layer polish, resistant to weather conditions.

**🚐** Suitable and homologated even for delivery vehicles. Before purchasing, check the suitability for your vehicle.

- Mercedes Sprinter

Price for 4 pcs.

Steel wheels

Great selection of steel wheels, suitable for most cars. All wheels come with black powder coated finish. Please contact us for the application list.

Wheel spacers

When installing spacers, replacement of the screws with longer ones is required, therefore the installation should only be carried out by a qualified expert.

**MATSPORT**

Matsport spacers are made of high quality anodized aluminum and are attached using longer bolts. They are available in thicknesses from 3mm to 30mm.

**H&R DR**

H&R DR spacers are made of high quality anodized aluminum and are attached using longer bolts. Available for a wide range of automobiles, for stock or aftermarket wheels.

**H&R DRM**

H&R DRM spacers are designed for vehicles with rims fixed with nuts. They are made of high quality anodized aluminum and are fitted with additional nuts. Available for a wide range of automobiles, for stock or aftermarket wheels.

**H&R DRA**

H&R DRA spacers are designed for vehicles with rims fixed with bolts. They are made of high quality anodized aluminum and are fitted with additional bolts. Available for a wide range of automobiles, for stock or aftermarket wheels.

**H&R DRS**

H&R DRS spacers are designed for vehicles with rims fixed with nuts and are of smaller thicknesses, which makes it impossible to install the DRM system. The longer screws supplied with the kit replace the original screws.

Spare wheels

Spare wheel sets are suitable for most cars. Set consists of a spare tyre in »slim« version together with the wheel, fitted and balanced, lift and key, suitable for space under the trunk, all packed in durable bag. Available in steel or alloy version. Please contact us for the application list.

Alloy

Steel

Nuts and bolts

Screws for the installation of rims and spacers. Screws are of superior quality (hardness 10.9) and zinc-protected from weather. We offer a complete assortment of screws and nuts.

Wheel locks

The Bimecc Safety Screws feature a simple yet effective protection system with a special attachment for the screw. Without it the screw can not be tightened or loosened.

McGard wheel locks are distinguished by a superior security system that prevents unscrewing with conventional tools. The McGard wheel locks can be unscrewed only with a special key that comes in the kit. If you lose the key, you can use a special code you receive with your purchase, to order a new one. Set includes 4 wheel locks and a key.

Center rings

Centering rings allow precise fitting of the rims to your car. You can find a complete range of center rings from Autec, Momo, Reds, Oxigin, Carmani and Tomason.

Wheel nut covers

Set includes 20 wheel nut covers and key for dismounting.

Available in two colors:  
- Black (key 17", 19" ali 21")  
- Chrome (key 17", 19" ali 21")

Tire repair kit Slime

Simple way to repair a flat tire.

The advantage of the Slime filler is that it does not damage the tire, as it can easily wash away with water.

Recommended for vehicles without a spare tire.

Brake Caliper Laquer Set

Foliatic Brake Caliper Lacquer seals and preserves the surface and is chemical corrosion and oil resistant. The set includes paint, cleaner and tools.

Spray Paint for Brake Calipers

Foliatic Spray Paint for Brake Calipers allows an easy and mess free application of paint for a unique look. Content: 400 ml

Marker for tires

Marker for writing on tire surface. Available in white and silver.

Tape for Rims

Decorative tape for rims. Length: 8,6 m (4 x 2,15m), width: 6 mm. Suitable for 4 rims.

Brake Cleaner

Foliatic Brake Cleaner efficiently removes dust and grease. It gives the brakes its natural shine. Use of the cleaner is recommended prior to applying paint on the brake calipers. Content: 400 ml
